Industry-Aligned Career Readiness Partnership

POSITIONING

Career Infrastructure Partner for Colleges

THE CONTEXT

Current Reality in Higher Education

Degrees Alone Are Not Enough

Academic excellence provides a foundation, but today's competitive job market demands practical, applied skills beyond the standard curriculum.

Placement Gaps Persist

Despite quality education and faculty efforts, many institutions face challenges in achieving 100% placement due to skill-to-job mismatches.

Industry Expectations Are Shifting

Technology cycles are faster than curriculum updates. Companies now hire for agility, specialized tech stacks, and day-one readiness.

STRATEGIC INSIGHT

"Colleges benefit significantly from strong external career partners to bridge the academia-industry divide."

The Employability Gap

Why traditional academic models struggle to meet modern industry speed.

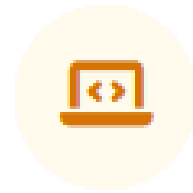

Why Colleges Need a Career Partner

Bridging the operational and strategic gaps between academic delivery and corporate requirements.

Industry Alignment

Synchronize curriculum and learning outcomes with real-time market demands to ensure relevance.

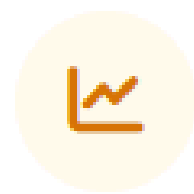

Structured Internships

Provide guaranteed access to live projects and virtual internships that scale with student volume.

Placement Readiness

Deploy dedicated frameworks for aptitude, soft skills, and interview prep beyond standard academics.

Outcome-Driven Training

Shift focus from certificate distribution to measurable skill acquisition and employability metrics.

Reputation & Rankings

Improve institutional scores (NAAC/NBA/NIRF) through better placement records and industry MoUs.

WHO WE ARE

A Career Readiness & *Internship Enablement* Platform.

Preppright is not just another EdTech vendor. We position ourselves as a strategic partner to build the career infrastructure your college needs to compete in today's market.

✓ Institutional Grade • ✓ Industry Verified

Extended Career Arm

We operate as an extension of your institution, integrating seamlessly with your Training & Placement Office (TPO) goals.

Outcomes, Not Just Certificates

Our focus moves beyond course completion rates to measurable employability improvements and placement success.

Academic Integration

Programs are designed to fit within your academic calendar, ensuring zero disruption to core degree requirements.

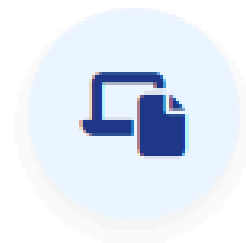

What Preppright Does for Colleges

01

Industry-Relevant Skill Programs

Curriculum mapped directly to high-demand job roles, ensuring students learn what the market is currently hiring for.

02

Internship & Project Exposure

Access to live projects and virtual internships with industry mentor guidance to build a proof-of-work portfolio.

03

Placement Readiness

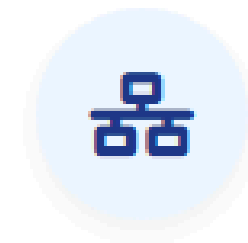

Comprehensive training covering aptitude, technical coding rounds, soft skills, and mock interview panels.

04

Student Performance Insights

Data-driven dashboards for TPOs to track student progress, skill gaps, and readiness levels in real-time.

05

Employer Connectivity

Strategic alignment with hiring partners to facilitate off-campus drives and role-specific placement opportunities.

Program Domains Offered

Comprehensive curriculum covering high-growth technology and core business sectors.

Technology Track

New Age & Emerging Technologies

AI & Machine Learning

Data Science

Cloud Computing

mentorship

Readiness

Resume, mock
interviews & aptitude

Career Launch

Placement drives &
offer letters

Seamlessly integrated with college labs and semester breaks for maximum participation.

Internships & Industry Exposure

Moving beyond classroom theory to provide students with tangible, resume-worthy professional experiences.

Real-World Projects

Hands-on execution of industry problem statements with structured code reviews and feedback loops.

Industry Mentors

Direct guidance from corporate professionals through live masterclasses and career mentorship sessions.

Internship Simulations

Virtual environments that replicate corporate workflows for students, ensuring exposure despite location.

Professional Exposure

Networking opportunities to understand corporate culture, business etiquette, and communication norms.

Portfolio Building

Creation of verifiable assets including GitHub repositories, project case studies, and enhanced resumes.

Placement Support Model

A rigorous, multi-stage preparation framework designed to maximize student employability and conversion rates.

01

Skill Validation

Rigorous assessments and project code reviews to verify technical competency before placement.

02

Profile Building

Optimization of Resumes, LinkedIn profiles, and GitHub portfolios to meet industry standards.

03

Interview Prep

Focused training on aptitude, coding rounds, and mock interview panels with experts.

04

Employer Alignment

Mapping eligible students to relevant job descriptions (JDs) based on skill data.

05

Facilitation

Coordinating with the TPO to schedule drives and facilitate the hiring process.

Note: Preppright acts as an enablement partner. While we maximize opportunities and readiness, final selection is at the sole discretion of the hiring company. We do not sell "guaranteed placement".

Value for the College

Partnering with Preppright delivers tangible outcomes that strengthen your institution's academic brand and ranking.

“

Outcome Driven

PARTNERSHIP PHILOSOPHY

"We don't just train students; we build a documented trail of skill acquisition and employability that supports your accreditation goals."

Improved Placement Metrics

Higher conversion rates, improved average salary packages, and reduced time-to-hire for graduates.

↑ Placement %

Enhanced Student Employability

Graduates equipped with day-one productive skills, confidence, and portfolio projects.

✓ Job Ready

Stronger Industry Connect

Active MoUs, corporate networking opportunities, and access to HR summits.

🌐 Network

Higher Student Satisfaction

Positive feedback loops leading to better admissions, referrals, and alumni strength.

♥ Retention

Value

Faculty & Institutional Support

A holistic partnership that goes beyond student training to empower faculty and streamline administrative placement functions.

Academic Empowerment

Strengthening the teaching ecosystem

- ✓ **Faculty Upskilling (Optional)**
Specialized sessions on emerging tech (AI, Cloud, IoT) to keep faculty updated with industry trends.
- ✓ **Curriculum Alignment Advisory**
Expert inputs to modernize syllabus and lab setups, bridging the gap between theory and practice.
- ✓ **Faculty Development Programs (FDP)**
Workshops on career readiness coaching to help faculty guide students effectively.

Operational Support

Enabling the Placement Cell (TPO)

- ✓ **TPO Operations Support**
Assistance with drive scheduling, student data management, and logistical coordination during placement season.
- ✓ **Reporting & Analytics**
Detailed post-training and placement reports to track progress and identify areas for improvement.
- ✓ **Industry Exposure Sessions**
Bringing corporate leaders to campus for guest lectures and networking with faculty and students.

🔗 Integrated Approach

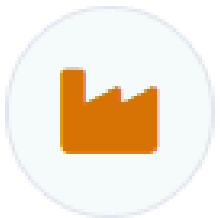

Trust & Ecosystem Alignment

Preppright operates with full regulatory compliance and alignment with national skilling missions, ensuring a risk-free partnership for institutions.

Partnership Models

Flexible engagement structures designed to align with your institution's scale, budget, and specific student readiness goals.

RECOMMENDED

Annual College Partnership

Comprehensive, institution-wide engagement covering all eligible departments for a full academic year. Best for holistic transformation.

✓ Includes L&D + Placement Support

Department-Wise Programs

Targeted intervention for specific branches (e.g., CS/IT or Core Engineering) focusing on specialized technical domains.

✓ Focused Domain Expertise

Internship Collaboration

Project-based learning modules executed during semester breaks (Summer/Winter) to fulfill academic internship credits.

✓ Credit-Aligned Projects

Placement Readiness

High-impact, short-duration bootcamps for final-year students focusing on aptitude, resume building, and interview skills.

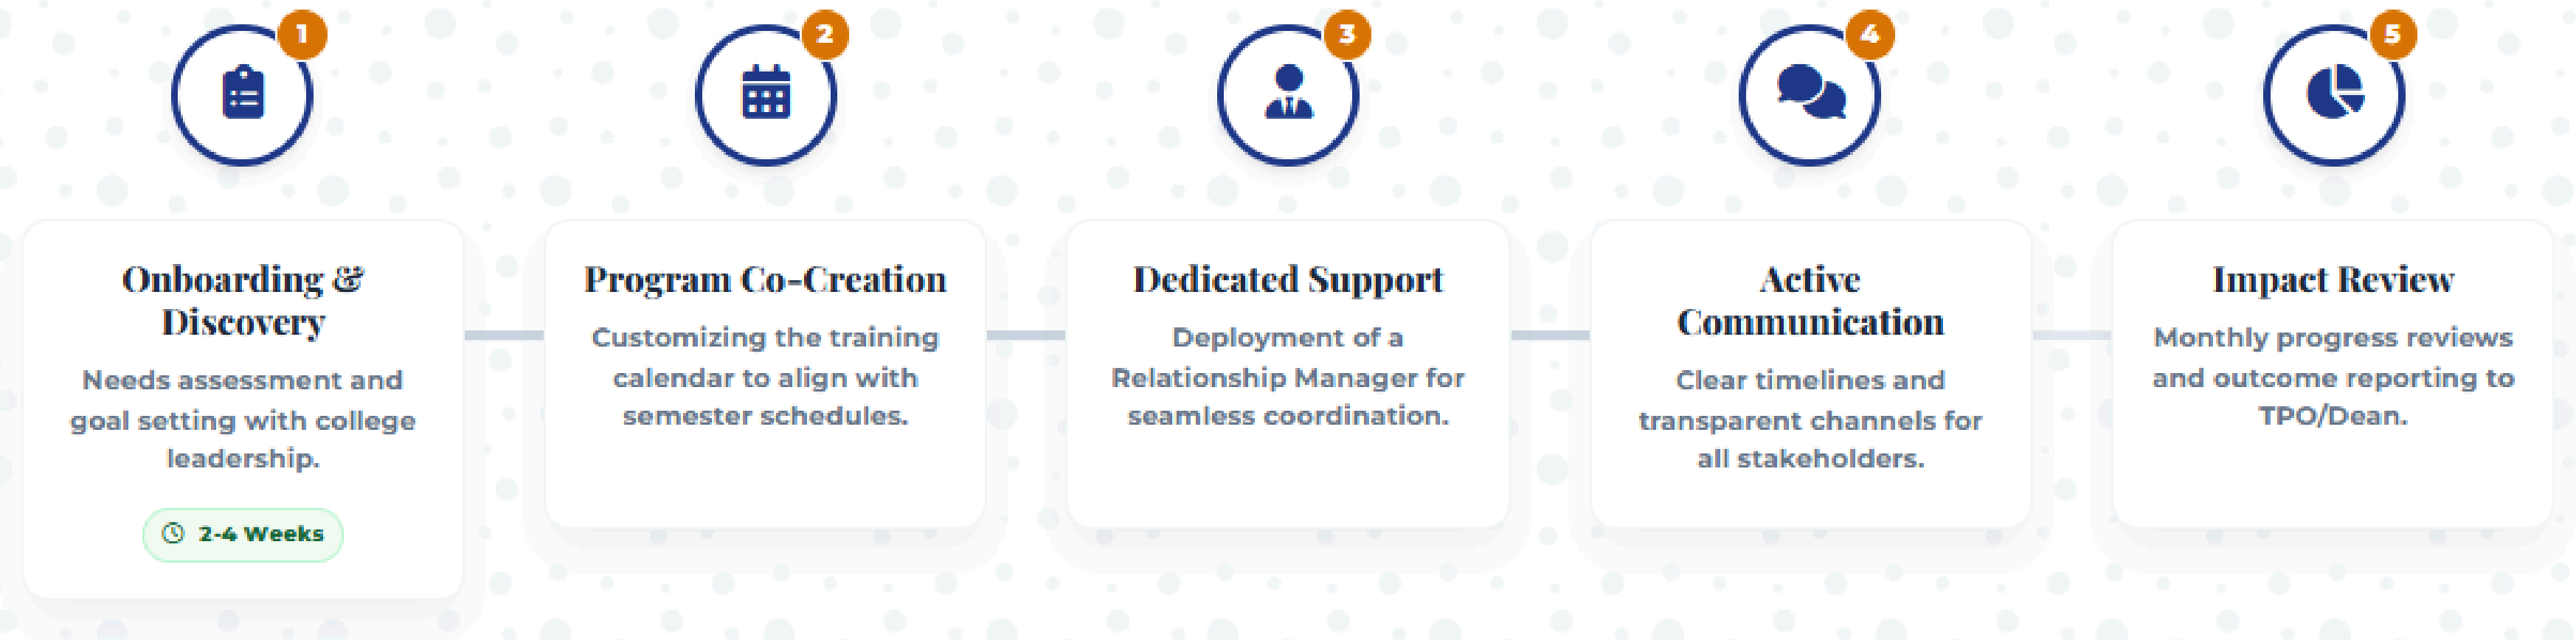

Custom Hybrid Model

A tailored mix of training, projects, and placement support designed based on specific institutional audits and outcome goals.

📄 Customizable pricing and duration for all models

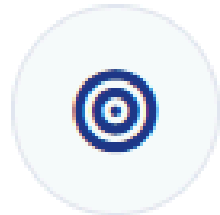

Implementation Approach

A structured, transparent onboarding process ensures minimal disruption to academics while maximizing student engagement from Day 1.

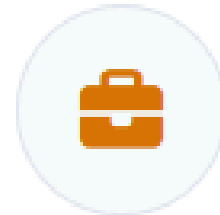

Why Preppright?

We don't just teach courses; we build careers. Our unique approach ensures that institutional goals and student aspirations are perfectly aligned.

Outcome-Focused

We measure our success not by course completion hours, but by tangible employability results and placement offers secured.

Industry-Aligned

Curriculum and projects are updated in real-time based on inputs from our network of corporate hiring partners.

Student-First

An empathy-driven pedagogy that focuses on building confidence and communication skills alongside technical competence.

Institution-Friendly

Long-Term Mindset

Next Steps

A clear, streamlined path to launching your campus Career Readiness Program.

Ready to transform student outcomes?

Our partnership process is designed to be swift and collaborative. From our first conversation to the pilot launch, we ensure every step is aligned with your institution's academic calendar.

 [Schedule Discussion](#)

1

Initial Discussion

Meeting with Principal, Dean, or TPO to align vision & expectations.

2

Needs Assessment & Customization

Analyzing current placement gaps and selecting program domains.

3

MoU / Partnership Agreement

Formalizing the collaboration structure, commercial terms, and scope.

4

Pilot Program Launch

Rolling out training/internships for a selected batch or department.

5

Review & Scale-Up

Evaluating outcomes and expanding the model institution-wide.

PARTNERSHIP PROPOSAL

Let's build industry-ready graduates together.

Preppright is committed to transforming your campus placement ecosystem. Let's schedule a discussion to customize a roadmap for your institution.
